

Box 623 / San Diego, California 92112 / TWX 910-335-1244 / Phone 714-277-6700

Enclosed is the Cohu literature you requested, plus a short-form catalog and an inquiry card.

If you desire additional information, a field engineer call or to be placed on our permanent mailing list, please fill in the card. It is self-addressed and postage-paid.

For your information, Cohu Electronics manufactures broadcast TV equipment, seven complete closed-circuit television systems, and four major lines of Cohu precision instruments.

For broadcast TV stations, Cohu provides video switching systems, sync generators, genlocks, color standards, dot-bar generators, sync changeover switches, pulse and video distribution amplifiers.

The CCTV lines include high resolution and self-contained camera systems; miniaturized, radiation-tolerant, airborne, underwater and environment-resistant camera systems. Cohu also provides more than 200 accessories.

Our instrument lines are DC data amplifiers; AC/DC voltage standards; power supplies and meter calibrators; AC/DC digital voltmeters and data logging systems, and bench instruments including the Cohu 208R micromultimeter.

Please let me know if we can be of service to you or your organization at any time.

THE ENGINEERING REPRESENTATIVE IN YOUR AREA IS:

J. A. REAGAN COMPANY, INC
419 Central Avenue
Albany, New York 12206

Sincerely,

R. L. Harmon, Manager
